PHILIP D. MURPHY  
GOVERNOR

October 5, 2019

Dear Friends,

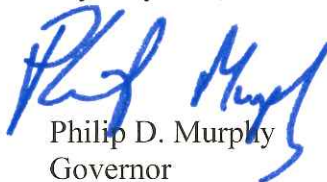

It is a pleasure to join everyone gathered to celebrate the New Jersey Electronic Security Association's 50<sup>th</sup> anniversary.

Since its inception in 1969, the New Jersey Electronic Security Association has worked tirelessly to provide a learning and growing experience combined with personal and business success in the security industry for all of its committed members. Installation, monitoring intrusion, fire detection, video surveillance and electronic access control systems, are just a few of the member companies many services. As Governor, I applaud NJESA's professionalism and dedication to the safety and security of our Garden State residents, businesses, and government entities.

Special congratulations are in order for the many winners of tonight's NJESA awards: The Founders Award, The Outstanding Service Award, The Legacy Award for Active Association Participation, and Recognition for Distinguished New Jersey Security Industry Achievement. Each and every award recipient can take pride in knowing that you all play an important role in the growth and expansion of NJESA.

Best wishes to all for an enjoyable and memorable evening.

My very best,

  
Philip D. Murphy  
Governor
